

Zultys Recognizes Gateway Telnet as Top Performer of the Year at the TAG 2010 Conference

*Gateway Telnet recognized for
outstanding achievement*

VAN NUYS, CA — May 27, 2010 — Gateway Telnet today announced it has been recognized by Zultys, Inc., a leading provider of Unified Communications and VoIP Business Phone Systems since 1999, as the top performer of the year at the 2010 Technology Assurance Group (TAG) National Conference. Gateway Telnet, a TAG member since 2009, also became a Zultys dealer that same year and quickly established itself as skilled channel partner for Zultys.

Gateway TelNet was founded in 1999 to assist the business world in filling the needs towards the convergence of voice and data, and is committed to establishing and maintaining a dynamic partnership with every customer.

“We are honored to be recognized as the Zultys Top Performer at this year’s 2010 TAG Conference, as there was some strong competition,” said Jerry Hilecher, President of Gateway TelNet. “Zultys offers a superior IP Telephone and Unified Communications solution that helps our customers meet their communications needs, boost

productivity and increase profitability. We are more than pleased to be working with Zultys and look forward to another great year representing their solutions to our clients.”

“Zultys is very pleased to recognize the performance of Gateway Telnet, as they have proven themselves to be a very skilled, committed, and aggressive partner,” said Neil Lichtman, Chairman and CEO of Zultys. “We look forward to continuing to work with them to help them meet their customers’ needs.”

ABOUT GATEWAY TELNET

Gateway Telnet Inc. is Southern California’s leader in introducing communications technology to the business environment. Even in a challenging economy, Gateway Telnet has specialized in finding Return On Investment opportunities to allow businesses to increase technology and increase their competitive advantage in the marketplace all at a cash neutral position.
